

Appendix G: Freight Project List
SFY 2015 and 2016

As described in Chapter 8 of the Missouri State Freight Plan, The Decision-Making Process, a prioritization process is used to evaluate freight needs based on mode. Figure 8-2 depicts the freight project prioritization process. The process was modified in March 2015 to include Tiers 1-4 for highway projects to reflect the importance of agriculture to the Missouri economy and Missouri agribusiness' need for moving products from farm to market primarily on the Tier 4 system. Tables 8-1, 8-2, 8-3 and 8-4 identify the factors used in evaluation of all needs.

This addendum reflects a continuing emergence of new transportation infrastructure needs to support the movement of products into, within, and out of Missouri. Needs/projects listed are in addition to those identified in the Missouri State Freight Plan Appendix G.

Any freight project identified and also funded is included in the Statewide Transportation Improvement Program (STIP).

District	County	Route	Description	Cost Estimate (thousands)	Job Number	Program SFY	Freight Prioritization	Section 1116 Submittal Tier
NW	Andrew	48	Remove load restriction on bridge over the Platte River, 0.6 mile east of Rte. D near Whitesville. Project involves bridge K0084.	1640	1S1051	2016	HIGH	3
NW	Caldwell	13	Remove load restriction on bridge over Log Creek 0.5 mile south of Rte. HH south near Kingston. Project involves bridge J0340.	1370	1P0434	2016	HIGH	3
NW	Chariton	PORT	Increase capacity for storage and transloading of ag products	1100			MEDIUM	NA
